

We provide a breadth and depth of expertise through our network of partners to advance rural communities.

We take a grassroots approach in responding to community need by connecting with rural leadership, facilitating resources, and providing advocacy.

We provide opportunities for rural communities.

LOCAL FOOD SYSTEMS

- Community Gardens
- Value Added Food Processing
- Farmers Markets

Committed to the future of rural communities.

ECONOMIC DEVELOPMENT STRATEGIES

SMALL BUSINESS UNIVERSITY

We provide technical assistance to small businesses and aspiring entrepreneurs throughout rural San Joaquin Valley. Our Small Business University helps entrepreneurs realize the dream of business ownership and help existing businesses remain competitive in a complex, ever-changing global marketplace.

We help rural communities boost and improve their economies and ecosystems by identifying, addressing and harnessing effective best strategies and opportunities. We convene and provide guidance to rural community leaders and local stakeholders in efforts to assess community and economic needs. We help develop a strategic plan that strengthens current approaches and ultimately helps identify the necessary tools and financing mechanisms to develop and execute an effective economic development strategic plan.

TA & COMMUNITY ASSESSMENT

We provide technical assistance to rural incorporated and unincorporated communities in efforts to help identify the strengths and resources available in the community to meet the needs of children, youth, and families. We help create a community assessment focused on the capabilities of the community, including its citizens, agencies, and local organizations.
