

# Spring 2014 Faculty and Staff Honor Roll

As part of the Graduating Students Survey conducted by the Office of Institutional Effectiveness, students are given the opportunity to commend faculty or staff members who have influenced their success. This Spring, 453 individuals were recognized by students. Supportive and passionate faculty and staff were two main themes recurring in the student comments. These remarks included such things as "their passion for the profession inspired me and kept me driven to be successful," "provided support for me along with motivation and encouragement," "were very committed to my success and passionate about their field", and "never giving up on me during my struggles." We acknowledge all of these wonderful faculty and staff members below.

*\*Those with an asterisk were mentioned by multiple students.*
