

POLICY ON FACULTY CONSULTATION AND VOTING

The academic excellence and efficient operation of California State University, Fresno, requires the fullest cooperation and coordination of departments, colleges/schools and the university. In order to ensure full participation by faculty in recommendations on academic matters, consultation between administrators and faculty members shall take place as required by Trustee policy including the Collective Bargaining Agreement (Unit 3).

I. DEFINITIONS

1. "Full-time faculty" are individuals, including full-time temporary faculty, who have full-time faculty appointments, as defined in Article 2 of the Collective Bargaining Agreement, in a department, at California State University, Fresno
2. "Full-time probationary faculty" are individuals who have full-time probationary faculty appointments, as defined in Articles 2 and 13 of The Collective Bargaining Agreement, in a department at California State University. Fresno.
3. "Full-time tenured faculty" are individuals who have full-time faculty appointments with tenure, as defined In Articles 2 and 13 of the Collective Bargaining Agreement, in a department, at California State University, Fresno. Participants in the Faculty Early Retirement Program are tenured faculty members.^{1 2}
4. An "administrator" is any person who holds an appointment under the Management Personnel Plan regardless of time base.
5. "Consultation"³ is a deliberative process by which faculty and administrators provide advice and information to each other and which does not commit the President or designees to a specific action. Meaningful consultation from initial formulation through final determination of policy and procedures consists of thoughtful deliberation, presentation of facts, and the exchange of opinions. Ideally, consultation should lead to consensus or agreement on the recommendation to be forwarded.⁴ Voting is often a valuable or required means of formalizing consultation. By itself, voting does not constitute consultation.

II. CONSULTATIVE PROCEDURES

Consistent with Trustee policy and within the framework of university policy, each college/school⁵ and department/program will develop policies that describe the general provisions for consulting

¹ See Article 29 of the CBA.

² Tenured participants in the Pre-retirement Reduction in Time Base Program (PRTB) pursuant to Article 30 of the CBA and tenured participants in the Reduction in Time Base Program pursuant to Title 5 are not full-time.

³ See Constitution of the Academic Assembly, Article I Section 7, Collegial Responsibility of the Academic Assembly and the President.

⁴ See Constitution of the Academic Assembly, Article II Section 5, Policy Consultation and Recommendations.

full-time faculty. Each college/school and department/program will create a supporting committee structure to ensure the participation of all full-time faculty members in the development of policy and procedures. These policies shall be consistent with the practices established in the Constitution of the Academic Assembly of California State University, Fresno. Committee recommendations shall be approved by a simple majority of the membership of the committee.⁶

A. ACADEMIC MATTERS

1. The department chair⁷ shall consult with all full-time faculty members, including full-time lecturers, of the department on academic matters prior to making recommendations to the dean. The purpose of this consultation is to afford the faculty an opportunity to express their views on the matters under discussion and to make formal recommendations.⁸
2. When a department is unable to provide for full consultation, the dean may, after consultation with the Provost and Vice President for Academic Affairs, take appropriate action. In all instances, the dean shall consult with the department chair as soon as practicable and provide prompt notice of actions taken under this provision. It is the responsibility of the department chair to communicate this information to the appropriate faculty within the department.
3. In matters that affect the entire college/school, the Academic Assembly of each college/school, consisting of all full-time faculty members, including full-time lecturers, may make recommendations to the dean. The dean shall consider such recommendations prior to taking action or making recommendations. The Academic Assembly shall meet at the request of the dean or as provided in the Articles of Governance.

B. PERSONNEL MATTERS

The provisions of the Collective Bargaining Agreement and campus policy govern the specific procedures for faculty consultation with regard to personnel matters.

III. ELIGIBILITY TO PARTICIPATE IN CONSULTATION

All full-time lecturers, all full-time probationary faculty members, and all tenured faculty members regardless of time base who have a current faculty appointment in the department and are on active employment status at the time of the consultation may vote on academic matters.

⁶ See Policy on Academic Organization and Governance (APM 113)

⁷ The term "department chair" includes chairs of proto-schools and coordinators of free standing programs recognized by the Provost.

⁸ The department chair may invite part-time temporary faculty, students, and others to present facts and express opinions on academic matters that may concern them or about which they have expertise.

It is the policy of the Trustees that faculty be consulted on academic personnel matters. Each campus shall develop campus-wide procedures whereby only members of the faculty who are tenured, and such department chairmen [sic] and academic administrators as the campus procedures shall provide, may participate at any level of consideration in the deliberations or vote on recommendations relating to appointment,⁹ retention, tenure or promotion of faculty. The procedures shall provide that those making such recommendations should consider information from other faculty members and any other source, including but not limited to students. The campus-wide procedures shall be consonant with the regulations, policies and procedures of the Board of Trustees and the Chancellor and shall be approved by the President.

Title 5, Section 43825, provides:

Notwithstanding any other provision of this subchapter, if a Memorandum of Understanding entered into pursuant to the Higher Education Employer-Employee Relations Act is in conflict with provisions in this subchapter, the terms of the Memorandum of Understanding and not the provisions of this subchapter shall govern as to those employees covered by the Memorandum of Understanding.
